

# WHEEL SEALS

## ULTIMATE SERIES

The Ultimate Series from Amsted Seals™ provides the longest maintenance-free service intervals, and when combined with other Amsted Seals premium wheel-end products, the longest warranted service performance in the industry. Providing faster and more error-free installations than conventional heavy duty wheel seals, this hand-installable series of seals features HNBR (premium nitrile) sealing surfaces on both the ID and OD surfaces, an industry first.

### FEATURES

- Easily installable by hand or with any flat tool
- Manufactured with advanced formula HNBR on all sealing lip and OD surfaces
- Premium sealing lip is protected by four contaminant exclusion barriers
- Widest available axle shoulder coverage in the industry
- Extended temperature range of -15°F to 250°F (-25°C to 120°C)
- Meets or exceeds performance features of all competitors' wheel seals
- 2-year limited warranty

### BENEFITS

- The combination ribbed rubber OD with piloted installation guide allows for accurate, easy and square installation to reduce cocked seals
- New advanced material extends the service life in extreme temperature environments including hot starts and braking
- Superior contamination prevention system prevents dirt and other debris from causing premature seal failure
- Provides superior sealing benefits on damaged and worn axles
- Designed to withstand the industry's most demanding vehicle environments
- Advanced material provides superior performance over a wide range of operating environments
- Great for long life services
